Mosquito-Killer-Bat

FEATURES:
- Use Ultraviolet Light to attract mosquito to kill them.
- It emits mini night light with purple lighting color.
- Battery rechargeable is workable.
- 2pcs of Nickel-Cadmium Battery 1.2V 300mA
- Once power is full, the recharge will be discontinued automatically and safety circuit is guaranteed.
- The bat can be set stand or handled to shake.
- Many colors are available for preference.
- Can fit several countries plug system.

< More information >:
Usually it’s SKD type. Before using, you should hold the handle and press the switch button located on the side of the bat till the indicator light is on. Wield it to make insects or mosquito are killed, release the button and brush or shake off insects on the net surface.

It’s suitable for both indoor and outdoor use, charged by different kinds of batteries, with torch or without torch. Several types, colors, functions are available for your preference.

The electronic mosquito Killer bat is a very effective, easy and convenient way to eliminate mosquitoes, insects, and other pests.
Mosquito Zapping Bat

Model: LMMKB-171

FEATURES:
- Light source: LED Light
- Battery rechargeable is workable.
- Use either rechargeable battery or AA battery
- The bat can be handled to shake.
- Many colors are available for preference.
- Can fit several countries plug system.

SPECIFICATIONS:
- Input Voltage: DC 3V
- Lamp: LED
- Grid voltage: 1200V
- Size: 56cm x 21cm x 3.5cm
[Pest Repellent Bat]
Model No. LMMKB-172

FEATURES:
- Using super-sonic system inside the handle
- When it's charged, super-sonic repelling system can drive mosquito away from you, or while you sleep, turn on super-sonic system to drive mosquito away

SPECIFICATIONS:
- Input voltage: AC 100-127V or 220-240V 50/60Hz
- Lamp: LED
- Grid Voltage: 1200V
- Size: 56cm x 21cm x 3.5cm

LMMKB-172
